

# meet our board members

## **Phil Johnson**

**Project Manager, McGough Construction**

**HACC Board Member since 2019**

I have been working in the construction industry for 9 years. Within that time, I have managed various types of construction projects from oil refineries and taconite pellet plants to elementary schools and hospitals.

My wife and I have two young boys ages 5 and 3. Our hobbies include hiking, fishing, camping or anything to be active outdoors. In the winter I am also involved with coaching local youth hockey and in the summer, I might try to squeeze in a few rounds of golf.

The Hermantown Chamber excites me, because of the impact of small-town relationships and quality members. All this, while still being close to the economic heart of the arrowhead region.

**Thanks for your service, Phil!**
